Forecast for Saturday 19 Nov 2022

Weather: Clear start then sunny morning, but high cloud arriving this afternoon. This evening the cloud lowers and thickens, with patchy light rain possibly arriving by midnight.

Chance of cloud-free hill tops above 600m: 95%, a few early patches of low cloud are likely around higher tops, falling to 80% by late evening.

Low cloud and visibility: Perhaps a few patches of lower cloud at first above 600m, but quickly lifting and clearing with very little cloud for the majority of today, with very good visibility and far reaching views expected. Cloud will thicken and lower this evening with scattered layers above 500m possibly arriving late this evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Feeling quite cold on the mountains, particularly this evening.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Sat 19 Nov 2022	0.2mm	0.4mm	9.4mm

Forecast for Sunday 20 Nov 2022

Weather: Outbreaks of rain will soon arrive, perhaps locally heavy, then clearing by dawn. Broken cloud and showers will follow, with the showers most frequent around the middle of the day when they will also be heavy at times, perhaps thundery with hail. Becoming dry and largely clear through the evening.

Maximum wind: Westerly winds 25-30 mph with gusts 35-40mph, easing late afternoon.

Chance of cloud-free hill tops 600m: 80% decreasing 50% with the rain, then improving 90% following the rain.

Low cloud and visibility: Broken cloud layers around 600m with the rain, will lift and clear but scattered low cloud around 600m will follow associated with showers. Visibility become moderate or poor at times with rain or showers, but for much of the day will be very good with far reaching views.

Temperature: **Valleys:** Plus 2 rising to 8 Celsius.
At 600m: Plus 4 Celsius.
Freezing level: Above the summits.
